1 · SUMMARY

The plan on one page

Buy biscuits in Delhi, pack them under the Broski brand, sell through West Delhi pet shops, groomers and housing societies first, and get the paperwork done in the next two weeks.

₹46	₹149	₹43	1,151
cost to make one 400 g pack (batch 1)	MRP per 400 g pack	average profit per pack, all channels	packs for ₹50,000 operating profit

Decisions already made

- Source in India, not China. Chinese quotes need a full container or 30,000 printed bags, and pet food import needs an animal-health import permit. Delhi bakers sell at ₹58–76/kg with no or tiny minimums.
- Launch two flavours, Peanut Butter and Chicken Sunday Bites, in 400 g pouches at MRP ₹149.
- Batch 1 uses plain matte pouches with our printed labels. Batch 2 moves to custom printed pouches once sales prove out.

What happens this week (13–19 October)

1. Send the 8 price-request emails already drafted in your Gmail, and send the WhatsApp text in section 3 to 8 more suppliers.
2. Visit Pet Zone India (Bakarwala, same PIN 110041) and Scoobee; collect biscuit samples from 3–4 bakers.
3. Apply for Udyam (free, same day) and GST registration (3–7 working days). Section 5 lists every document.
4. File the BROSKI trademark in class 31 after a quick search.
5. Order 2–3 sample pouches from Bizpressions and Sprinpak; test that 400 g fits.

Honest money picture. With realistic sales (about 1,130 packs in November and December) Broski makes about ₹49,096 operating profit, close to the ₹50,000 goal. One-time setup costs of ₹64,500 are recovered at about 1,485 packs. To end December with ₹50,000 *after* all setup costs, you need about 2,635 packs, which is a stretch goal of around 300 packs a week.

Petzuu	Palghar, MH	Peanut butter / oats ₹700/kg, MOQ 30 kg	Email drafted	Send email (premium option)

Arjun’s pick: keep Scoobee (₹76/kg with GST bill) as the safe base. Try to beat it with Pet Zone, Amandev and Grandeur Luxe. A real peanut-butter or banana-oat biscuit is a custom recipe. Commodity bakers at ₹60–75/kg sell plain, milk or chicken biscuits. Ask each baker whether they will add peanut butter to their dough, and what that adds per kg.

WhatsApp / phone text for suppliers without email (Pet Zone, Amandev, Global Biotech, Pet Needs, AL Falah, Innomalous, Vijay, Duropack):

> Namaste ji, main Lakshay, Broski ka founder hoon – West Delhi (110041) mein naya dog biscuit brand. Humein bone-shape dog biscuits chahiye (chicken aur peanut butter), pehle 100–300 kg ka trial, phir har mahine order. Kripya bataiye: 1) rate per kg, GST alag se, delivery 110041 tak; 2) minimum order; 3) kya aap 400 g pouch mein pack kar sakte hain; 4) sample kab mil sakta hai; 5) aapka GSTIN. Dhanyavaad!

Questions to ask every baker

- Do you bake yourself, or resell? Can we see the unit?
- Ingredient list and shelf life for each biscuit, in writing.
- GST invoice and GSTIN. Trade or factory licence.
- Will you add peanut butter / chicken to the dough? Extra cost per kg?
- Can you pack 400 g into our pouches, and stamp the bake date and batch no.?
- Payment terms: 50% advance is normal; avoid 100% advance on a first order.

What one pack costs and earns

All figures exclude GST. Once registered, GST you pay suppliers is credited against GST you collect, so it is not a cost.

Batch 1: plain pouch + labels	Per pack
Biscuits, 400 g (₹76/kg incl. GST)	₹25.76
Plain matte zipper pouch	₹11.00
Front + back labels	₹5.00
Packing, sealing, stamp	₹2.00
Local transport	₹2.00
Landed cost	**₹45.76**

Batch 2: custom printed pouch	Per pack
Biscuits, 400 g	₹25.76
Custom printed pouch (1,000/design)	₹18.00
Packing, sealing, stamp	₹2.00
Local transport	₹2.00
Landed cost	**₹47.76**

Profit per pack by sales channel

Channel	Customer pays	Broski gets (ex-GST)	Other costs	Profit / pack	Share of sales
Pet shops & groomers	₹100 to us (shop sells at ₹149)	₹84.75	Delivery ₹2	₹36.98	60%
Direct: societies, WhatsApp, stalls	₹149 MRP	₹126.27	Hand delivery ₹10	₹70.51	25%
Online 3-pack	₹449 for 3, delivered	₹126.84	Courier, box, gateway, ads	₹24.21	15%
Blended average				**₹43.45**	100%

Online 3-pack costs: ₹85 courier, ₹15 box, 2.36% gateway fee, ₹60 ad spend per order. A single online pack loses money after courier, so online sells only 3-packs.

Shops are the volume, direct is the margin. A pack sold directly in a housing society earns almost twice what a shop pack earns. Use shops for reach and repeat orders; push weekend society stalls and WhatsApp reorders for profit.

Sales plan and the ₹50,000 goal

Week	Packs (base case)	Cumulative packs	Operating profit (cumulative)
3–9 Nov (Diwali week)	120	120	₹5,214
10–16 Nov	100	220	₹9,559
17–23 Nov	110	330	₹14,338
24–30 Nov	130	460	₹19,986
1–7 Dec	140	600	₹26,069
8–14 Dec	150	750	₹32,586
15–21 Dec	160	910	₹39,538
22–28 Dec	170	1,080	₹46,924
29–31 Dec	50	1,130	₹49,096

Scenario (3 Nov – 31 Dec)	Packs	Kg of biscuit	Operating profit	After setup costs
Slow start	600	240	₹26,069	−₹38,431
Base case	1,130	452	₹49,096	−₹15,404
₹50k after setup (stretch)	2,635	1,054	₹114,500	₹50,000

What the base case needs

- 25 pet shops and groomers in West Delhi each selling 3–4 packs a week (about 90 packs).
- Two weekend society stalls plus WhatsApp reorders (about 35 packs a week).
- 8–10 online 3-pack orders a week from Instagram and the website.
- Diwali gifting push in launch week: gift tags on packs, “gift a bro” offer.

Neha’s view: base case gets close to ₹50,000 operating profit by 31 December. Recovering the ₹64,500 setup as well is more likely by February. Track weekly: if a week falls below 80 packs, Dev adds 5 new shops the next week.

5 · DOCUMENTS & REGISTRATIONS

GST in plain words

Question	Answer
Is GST registration compulsory?	Not below ₹40 lakh yearly sales of goods in Delhi, if you sell only within Delhi. It becomes compulsory if you sell across states through Amazon/Flipkart or cross ₹40 lakh. Small sellers selling online within one state can use an enrolment number instead (CGST notification 34/2023).
Should Broski register now?	**Yes, voluntarily.** Pet shops prefer GST bills, you recover the 18% GST charged by Scoobee and the printers, and you are ready for online marketplaces.
Which scheme?	Regular scheme. Composition (1%) cannot charge GST to shops or claim input credit, which hurts us.
HSN code	2309 10 00 – dog or cat food, put up for retail sale.
GST rate	Historically 18% (residual entry). Some online rate tables show different rates after the September 2025 GST reform. **Confirm the current rate with your CA before the first invoice**; the plan uses 18% to be safe.
Documents for GST	PAN, Aadhaar, photo, proof of business address (rent agreement + owner NOC + electricity bill, or own property papers), bank statement/cancelled cheque, email and mobile.
Returns	GSTR-1 (sales) and GSTR-3B (tax paid). Quarterly filing (QRMP) is allowed under ₹5 crore turnover. A CA can do it for ₹500–1,500 a month.

Not needed, and do not claim

- FSSAI licence: FSSAI covers food for humans, not pet food. Never print “FSSAI approved” on the pack.
- BIS IS 11968 (pet food standard) is voluntary for us; ask the baker if they follow it.
- Import Export Code and animal-health import permit: only if we import from China later.

> Rex is not a lawyer or chartered accountant. Use this as a checklist and have a CA confirm GST rate, scheme and Legal Metrology before the first sale.

Decisions waiting for you

1. Send the 8 Gmail drafts (or tell Rex to send them).
2. Approve ₹2,500 for samples and ₹8,000 for a lab test.
3. Choose: register GST yourself on gst.gov.in, or through a CA.
4. Confirm the business address you will use for GST and Legal Metrology.
5. Confirm launch flavours and MRP ₹149 for 400 g.

Risks to watch

- Baker quality varies batch to batch: taste every batch, keep a sample from each batch for 3 months.
- Shops pay late: keep credit to 15 days and small first orders (6–10 packs).
- Moisture makes biscuits soft: use foil-lined pouches, seal well, check shelf life with the lab.
- No claims we cannot prove: no "vet approved", "healthy", "human-grade" or fake reviews.
